

Single phase autotransformers "SBC1" RANGE

for household appliances, isolation class E, input 240V output 110V

The SBC1 REVERSIBLE AUTOTRANSFORMERS are one of the most popular items distributed by K-factor since 1980 in the Middle-East countries. The new SBC1 range features an input fused terminal and an output BS standard socket, as well as the polycarbonate covers.

Polycarbonate covers provide a better isolation from the transformers' heating and they are totally rust-free.

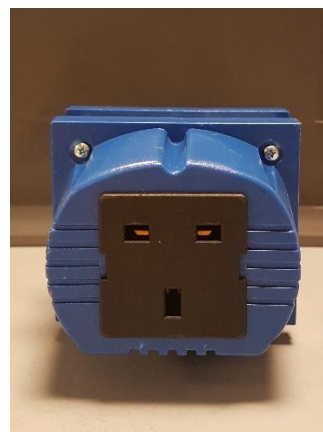

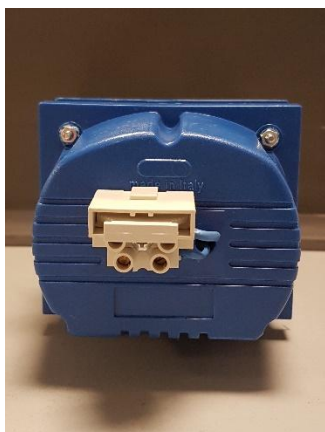

Ask for the various versions available: **240/110V, 240/127V, 220/110V, 220/127V**

TECHNICAL SPECIFICATION

Rated power:	100VA : 10.000VA
Input voltage:	240V
Output voltage:	110V
Frequency:	50/60 Hz
Standards applied:	CEI 96-13 EN61558-2-13

ACCESSORIES INCLUDED

Enlarged voltage labels	YES
Single carton packing	UP TO 3KVA
Supply cord	NOT SUPPLIED
Output connections through terminal blocks:	3kVA and above

From 100 to 5KVA (from 3kVA terminal blocks on both sides)

From 7.5 to 10kVA

MBT02 IP23 ENCLOSURE
